

On-Target

A Compass to Guide You

“Where Are You?”

Instruction: *Your target will act as your compass, helping you keep your performance and resilience at their optimal levels. Review each target regularly and make it an essential part of your life.*

*Following the presentation of each Module, plot your shot on the corresponding target using the scale:
1 (Non-Mastery) to 10 (Mastery).*

OSOK includes this targeting system, which enables you (the warrior athlete) to track and monitor your level of performance. Following the completion of each module, you will be asked to answer a number of questions and plot your “shot” on the corresponding module’s target sheet. Once you complete all of the module target sheets, your shot group can be analyzed and your current level of performance will be assessed. This will give you an idea of which shot (i.e., module/life system) you need to focus on first. This shot score will act as a compass at any time for keeping you at your peak level of performance; it will pinpoint systems that have become compromised and need attention.

SHOT GROUP

(Transfer individual shots to this shot group target)

Module Mastery Assessment		
Modules:	Transfer Score:	Focus your attention on the Module with the lowest score first
- Controlled Response (CR) Module		
- Mind Tactics (MT) Module		
- Performance Based Nutrition (PN) Module		
- Primal Fitness (PF) Module		
- Purpose (P) Module		
- Code (C) Module		
- Recharge (R) Module		
<p>Instructions: Once you've transferred your scores from your Module shots (e.g., Purpose, Mind Tactics, etc.) and plotted your shot group on the target above, select the Module with the lowest score/farthest shot from the bull's-eye. This will be the Module you will focus most of your attention on.</p> <p>Again, continue to use this system on a regular basis to keep you at your peak level of performance.</p>
